Family Survey Results

Participants: 134 Families

Strengths:

- The family survey data continues to show that school safety is our highest rated category.

Areas for Improvement:

- Families report that they do not feel like school rules are consistently enforced.

Next Steps:

- After input from the family survey as well as further review of our school data, we recognize the need to reteach various school rules around the building. Our focus was reteaching *technology expectations, lunch room procedures, and bathroom expectations.*
