Please return to your school office by May 1, 2020.

The main goal of HPS is to provide a diverse and equal learning opportunity for all students. We consider academic, social and emotional concerns in order to make a successful student - teacher match. Other factors such as gender and ethnicity are taken into account in order to provide balanced classrooms. It should be noted that a variety of circumstances such as: changes in staff positions, changes in enrollment or specific individual needs may impact student placements. Final class placements are made by the building principal in compliance with HPS Board of Education Policy 5120.
